## What Makes Us Different?

Our Buzz team consists of hard-working men and women, most of whom have either been incarcerated or have met a loved one on a pen pal website. We know what it's like in there, because we've been there! Meeting a friend, while locked up, can truly change *everything*. That's why we strive, each and every day, to provide the best (and fastest) customer service in the industry, and to connect you with as many pen pals as possible

**PenPals.Buzz** promotes its service across all social media channels, in search engines, on podcasts, email lists, worldwide syndicated radio shows, national TV networks, and in a variety of print magazines and catalogs. Many other sites will just publish your profile and hope for the best. We spend money to actively promote your profile to the world.
